PROFILE

Passionate web developer with more than a year's worth of expertise in creating and managing operational websites. competent in backend programming using Node.js and Java, as well as frontend technologies like React.js and Vue.js. adept in using Google Cloud Platform (GCP) to provide solutions that are scalable. renowned for creating user-friendly, responsive interfaces and enhancing the performance of applications

EDUCATION

Project Management (Ontario Graduate Certificate) <i>Humber College</i>	01/2023 – 08/2023
Web Development (Post Graduate Diploma) <i>Humber College</i>	01/2022 – 12/2022
Bachelors of Engineering <i>Information Technology (Computer Science)</i>	07/2017 – 08/2021

SKILLS

Front-End Development: React.js, Vue.js, HTML5, CSS3, JavaScript, TypeScript, Bootstrap, and jQuery

Backend Development: Node.js, SpringBoot, .NET, C#, REST APIs, JSON

Database: SQL, MySQL, MongoDB, PostgreSQL

Version Control: Jira, GitHub, Git, and Visual Studio

Development Methodology: Agile, Scrum

Designing Tool and Graphics: Canva, Figma

Concepts and Technologies: Responsive Design, React Testing Library, Crossbrowser Compatibility, Debugging, SDLC, and Object-Oriented design

Interpersonal Skills: Team collaboration, Strong sense of ownership, task execution, effective Communication skills, Problem-solving, Time-sensitivity

PROFESSIONAL EXPERIENCE

WEB DEVELOPER (CONTRACT) <i>N-MICRO IT SOLUTIONS</i>	08/2023 – 07/2024 Mississauga, Canada
<ul style="list-style-type: none">developed and maintained Node.js and React.js web applications for a variety of ongoing projects, improving the user experience and helping to drive a 30% rise in online sales.Implemented performance optimizations resulting in a 15% reduction in bounce rates.Worked collaboratively to connect APIs and enhance application functionality with front-end and back-end teams.Assisted in maintaining and creating databases, guaranteeing the security and integrity of the dataTook part in sprint planning and daily stand-ups while working in an Agile Scrum team..	
Junior Web Developer Intern <i>EverBrands Limited</i>	01/2022 – 12/2022 Toronto, Canada
<ul style="list-style-type: none">Written stored procedures to quickly access and display data from SQL databases allowed for the development and upkeep of web sites.	

- Collaborated with the backend team to incorporate APIs and guarantee smooth data transfer between client-side and server-side programs.
- Improved web forms' interactivity using React.js to guarantee seamless user interactions and real-time data validation.
- Produced and maintained up-to-date reusable components to expedite the creation of frontend applications, saving twenty percent of the development time.
- Increased page load times by 15% thanks to web apps that are optimized for optimal performance and scalability.
- Managed and created dashboards for admin panels that provided real-time data display and user control.

PROJECTS

Full Stack Blog Application | React.js, Node.js, MySQL

- Constructed a dynamic full-stack blog application utilizing React for the frontend and Node.js for the backend.
- Enabled seamless user interaction and content management with a responsive and intuitive interface.
- Implemented MySQL for robust data storage and management, ensuring scalability and efficient data retrieval.

StyleSplash | ASP.NET, MySQL

- Built an e-commerce website using the ASP.NET  Framework.
- Provided a sophisticated inventory management system, safe payment processing, and an extensive shopping experience.
- Increased online sales and improved user satisfaction

Voice Based Alexa System | MVC .NET, AWS

- Integrated Alexa Skills Kit (ASK) with ASP.NET  backend to process voice commands and trigger corresponding actions in the web application.
- AWS Lambda Integration: Utilized AWS Lambda for scalable, serverless processing of voice inputs.
- Implemented real-time feedback to confirm user commands, enhancing interaction reliability.

CERTIFICATES
